## **Contec® Specialty Cleaning Products for Animal Lab Facilities**

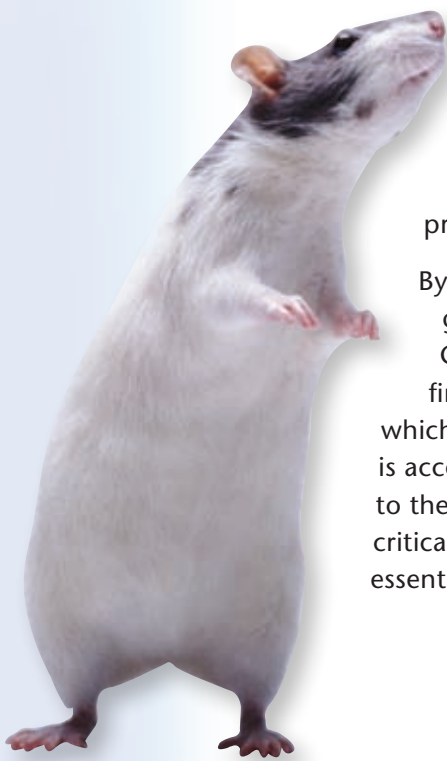

**Mopping Systems, Wipes and Disinfectants  
for all size facilities and all types of surfaces**

- Faster, more effective cleaning
- Better ergonomics reduce stress on staff
- Improved environment for animals

Animal labs represent a tremendous investment in terms of time, money, and most importantly — new technology. Proper facility maintenance is critical to protecting this investment, which often represents years of research and experimentation. Contec, Inc. is a company that is dedicated to meeting the critical cleaning needs of challenging environments. Contec has partnered

with experienced lab animal professionals to understand the special requirements of this industry and to design a product line that will meet the critical needs of animal labs. We are prepared to work with lab managers and facilities people to develop the best and most efficient cleaning protocols for your specific application.

By the very nature of their subjects, animal facilities generate a tremendous amount of dirt and debris. Cleaning these areas poses two key challenges: The first is overcoming the logistics of cleaning facilities which continually generate contamination; and the second is accomplishing this cleaning while minimizing health risks to the subject animals. Using products designed for these critical applications and protocols that are easy to follow are essential elements in getting this job done well.

## Textured Edgeless® Mopping System

The Textured Edgeless knitted polyester tube mop eliminates contamination from breakage and deterioration of traditional string mops. For use with aqueous solutions containing cleaning agents and disinfectants. Use with Contec's polypropylene double bucket with down-press wringer for maximum extraction with minimum noise. Available with coloured tail bands for differentiation and prevention of cross-contamination between rooms.

- Textured polyester eliminates cotton mop fibres in the facility
- Eliminates cellulose that can be a food source for mould and bacteria
- Rugged knitted construction lasts up to 5 times longer than traditional mops
- Aggressive head band gives scrubbing power for difficult stains and debris
- Can be laundered or cage-washed and autoclaved

Contec Part #	Description
EL-MOPT	Textured Edgeless mop head w/ aggressive cleaning headband
EL-MOPT-GY	Textured Edgeless mop head, grey
ELTC-BLU	Textured Edgeless mop head, blue tail band
ELTC-BLK	Textured Edgeless mop head, black tail band
ELTC-RED	Textured Edgeless mop head, red tail band
ELTC-GRN	Textured Edgeless mop head, green tail band
A71612	162.4cm Fibreglass Handle with mop head frame, 1 piece, non-autoclavable
2640	Stainless Steel Handle, 152cm, 1 piece autoclavable
	Fibreglass Handle, 162cm, 1 piece, non-autoclavable
2646	Dynamate™ QuickConnect™ mop head frame, 15 x 18cm autoclavable, fits QuickConnect handle
2725E	QuickConnect handle, 152cm, stainless steel, lightweight, 1 piece, autoclavable
2720EU	Polypropylene Double Bucket System, two 25L buckets (red and blue), wringer, cart with casters, autoclavable

## EasyCurve™ Mopping System

The EasyCurve mop consists of polyester-laminated foam mop-head attached to a curved, stainless steel frame. The disposable absorbent mop head attaches securely to the curved frame by a unique system of latching tabs that is simple and easy to remove. Use with Contec's polypropylene twin bucket with Slinger for maximum extraction with minimum noise.

- Up to 50% lighter than self-wringing roller mops
- Ultimate manoeuvrability allows maximum cleaning speed
- Recommended for polymeric contamination control flooring
- Curved mop surface enables uniform application of disinfectants and promotes efficient surface-cleaning
- Enables cleaning of ceilings, walls and floors with a single mopping tool

Contec Part #	Description
EZMP0100	EasyCurve mop head, 35 x 11 x 2cm
2724	EasyCurve mop head frame
2725E	QuickConnect handle, 152cm, stainless steel, lightweight, 1 piece
2743	Twin bucket polypropylene (sea foam green) with slinger and frame, 20L total volume, includes one cover, 4 casters, autoclavable excluding casters

## Easy Reach

EasyReach™ is a small mop with easy to fit polyester mop heads and is recommended for regular and effective cleaning of surfaces in: Isolators, Laminar Air Flow Hoods (LAF), Bio-safety Cabinets, Glove Boxes, Incubators.

- Strong and durable, abrasion and chemical resistant
- Excellent sorption properties
- Larger systems can be cleaned quickly and effectively
- Autoclavable for re-use in sterile environments
- Ensures effective cleaning of difficult to reach areas

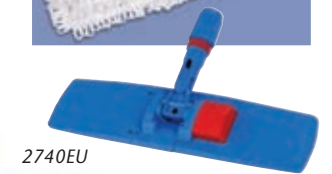

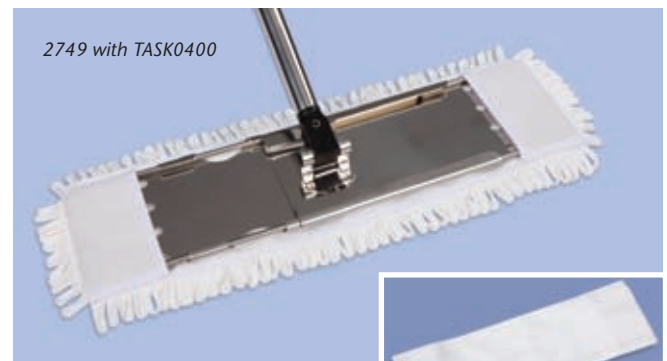

Contec Part #	Description
2685	QuickConnect Mop Head Frame
2686	QuickConnect Handle, 40cm, Stainless Steel
MEQT0001	EasyReach Cleaning Pads, quilted polyester, 7 x 20cm
MEQT0002	EasyReach Cleaning Pads, quilted polyester, sterile, 7 x 20cm
PSME0001	EasyReach Cleaning Pads, quilted polyester, pre-saturated with 70% IPA/30% DI Water, sterile, 7 x 20cm
PSME0003	EasyReach Cleaning Pads, quilted polyester, pre-saturated with 70% ETOH/30% DI Water, 7 x 20cm

## QuickTask™ Mopping System

The QuickTask mop range consists of knitted polyester and microfibre flat mop heads with folding head frames in stainless steel or autoclavable polypropylene.

- Use for dry or wet mopping with a wide range of chemicals
- Can be laundered or cage-washed and autoclaved
- Good coverage of uneven surfaces
- Clean ceilings, walls and floors with a single mopping tool

Contec Part #	Description
TASK0200	QuickTask disposable polyester knit flat mop cover, white, 41 x 15cm
TASK0300	QuickTask split polyester microfibre flat mop cover, blue, 41 x 15cm
TASK0400	QuickTask polyester microfibre knit loop flat mop cover, white, 41 x 15cm
2749	QuickTask flat hinged mop head frame and handle, 40cm, stainless steel, 1 piece
2740EU	QuickTask flat hinged mop head frame, 40cm, blue polypropylene
2725E	QuickConnect handle, 152cm, stainless steel, lightweight, 1 piece
2743	Twin bucket polypropylene (sea-foam green) with slinger and frame, 20L total volume, includes one cover, 4 casters, autoclavable excluding casters, <i>photo on page 2</i>
2738	Plastic sieve, blue polypropylene (for use with UBKT0001, UBKT0002)
UBKT0001	Polypropylene bucket, 25L, blue
UBKT0002	Polypropylene bucket, 25L, red

## Tax-Fre® Dry Mopping System

The Tax-Fre dry mop removes dust, hair and dirt from floors prior to or between wet mop applications. Disposable fabric floor mop covers are specially treated to pick up fine contaminants like hair and pin-worm eggs. The large 58cm x 13cm tapered swivel head with lightweight telescoping aluminium handle enables the operator to clean in difficult to reach areas. Surface wipes are also available.

Contec Part #	Description
TF-1228	Tax-Fre floor mop covers, 31 x 71cm
UF211	Tax-Fre swivel mop head, 58 x 13cm
WWP08	Aluminium extension handle, 3m, 2 pieces
TAX-FRE	Tax-Fre non-woven polyester tack cloth, 25 x 46cm

## PROSAT® and SATWipes®

Contec is the leader in the manufacturing of pre-saturated wipes for critical environments. Pre-saturated wipes offer a convenient and controlled solution to wet wiping applications. Currently available with 70% IPA/DI water or 70% EtOH/DI water blends. Visit our web site for our full product line.

- Eliminate in-house blending
- Fast, efficient cleaning
- Economical large put-up options
- Reduces potential for cross-contamination

Contec Part #	Description
PS-850	PROSAT polypropylene wipes, 70% IPA/30% DI Water, 20 x 20cm, 50 wipes per pouch
SWNW0014	SATWipes polypropylene/rayon wipes, 70% IPA/30% DI Water in centre-pull canister; 14 x 20cm, 180 wipes per canister
SWNW0013	SATWipes polyester/rayon wipes, 70% IPA/30% DI Water in easy-dispensing bucket; 23 x 18cm, 700 wipes/bucket

## TuffStuff™ Critical Task Wipes

- TuffStuff multipurpose wipes offer strength, absorbency and versatility
- Exceptional performance at an economical price
- Low linting, solvent-resistant wipe maintains high strength, even when wet

Contec Part #	Description
TSWC0917	TuffStuff premium creped nonwoven wipes, white, 23 x 42cm, pop-up dispenser box
TSWL1213	TuffStuff light nonwoven wipes, white, 21 x 22cm, quarter-folded

Contec offers dry wipes designed for durability and ease of use in many cleaning applications. Choose from clean processed polyester knits to economical, absorbent nonwovens. Visit [www.contecinc.com](http://www.contecinc.com) for our full product line.

## Sterile Wipes

Contec offers a wide range of validated sterile wipes for use in aseptic animal facilities or in analytical and surgical procedures. Visit our web site for our full product line.

Contec Part #	Description
PS-911EB	PROSAT® Sterile™ polypropylene wipes, pre-saturated with 70%IPA/30% DI Water, sterile, 23 x 28cm
C2-1212IR	Polyester/cellulose wipes, sterile, 30 x 30cm
NWPZ0002	DuPont™ Sontara Nonpyrogenic wipes, polyester/rayon, sterile, 30 x 30cm

## Contec Sterile 70% Isopropanol

A blend of 70% by volume EP-grade Isopropanol and 30% EP-purified water, filtered to 0.2µ. The 1L bottles are lot coded, double bagged and gamma-irradiated to ensure sterility for use in critical environments. The special co-extruded flexible inner bag and solid outer bottle with modified trigger sprayer create an 'airless' system which ensures the liquid contents remain sterile during use.

Contec Part #	Description
SBT170I	Contec Sterile 70% Isopropanol, 70% IPA & 30% Purified Water

## Swabs

Contec's CONSTIX® swab line offers a solution to almost any swab application challenge. Included are sealed and wrapped foam swabs for general applications and sealed and wrapped polyester swabs for applications with critical contamination sensitivity. Visit our web site for our full product line.

Contec Part #	Description
SF-2	2 x 0.2cm foam head, 0.6 x .03cm polypropylene handle, 13cm total length
SF-6	0.8 x 2cm non-reticulated foam head, flex tip, 0.5cm diameter polypropylene tube handle, 11cm total length
SF-12	0.4 x 1cm foam head, 0.3cm dia. polypropylene handle, 7cm total length

Contec® cleaning and disinfecting products are available throughout the world. Sales offices are conveniently located in North and South America, Europe and Asia. Visit our web site to find a sales representative in your area and to learn more about our products for critical environments.
