enrichment & nesting

NEW
Product

JUST
3.5p
per sheet

Simply
tear a sheet
off, scrunch it
up & place it in
the cage.

Portion Controlled, Disposable Nesting & Enrichment

Thermoregulation is vital to laboratory mice and rats, which is why nesting material must be light, comfortable and warm.

RollNest high-quality, dust-free nesting material that is suitable for all rodents, this portion controlled nesting material has been designed to resemble natural nesting materials instinctively used by rodents in the wild. Light enough to drag to the right location, capable of trapping pockets of warm air and is soft enough to provide comfort whilst being strong enough to hold its shape.

The long strands encourage natural burrowing activity and help rodents build their preferred dome-shaped nest. Its high absorption capacity means bedding stays dry for added comfort, once soiled **RollNest** is easy to dispose of and replace.

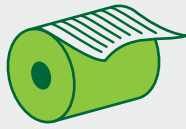

- Sheet size 240x152mm
- 500 Sheets per roll
- 6 Rolls per box
- Portion controlled
- 3g per sheet
- Aids thermoregulation
- Dust Free

rollnest™

portion controlled nesting on a roll

Benefits

Added enrichment

RollNest is designed to resemble the natural materials mice and rats use to build their nests.

Animals make their own nest by pulling apart the pre-cut strands of paper from the sheet of nesting material.

Reduced storage requirements & lower shipping cost.

Using flat sheets reduces the amount of valuable space needed for storage and transport.

Control costs with a fixed price per cage

RollNest provides a consistent amount of nesting material, so you can count on a certain cost per cage.

Labour savings

RollNest is a portion-controlled and easy-to-dispense enrichment and nesting material. It eliminates the time needed to handle and portion bulk nesting material.

With no pulling, teasing or preparation required, **RollNest** can be torn off the roll and easily dispensed into animal cages.

Ask us about a FREE TRIAL

Halve your nesting costs & uses a fraction of the storage space of traditional nesting products.

maximise your storage space

RollNest is supplied as 500 flat sheets on a roll. Your animals will utilise their natural instincts to make a warm and comfortable nest.

Using flat sheets rather than pre-crinkled paper reduces the amount of valuable storage space needed to store your nesting.
