

# Bodyguards® Black Nitrile GL897

## A soft and elastic black disposable glove

**Bodyguards® Black Nitrile GL897 from Polyco is a powder free nitrile disposable glove, that offers good mechanical resistance. It has an AQL rating of 1.5 and complies to Medical Standard EN455 Class I.**

The high quality nitrile synthetic rubber that is used to manufacture the GL897 is extremely soft with increased elasticity and an improved feel, yet it still maintains a tensile strength that is comparable to natural rubber. The cuff is beaded adding strength and preventing liquid roll back. The GL897 contains none of the proteins that are present in natural rubber eliminating protein sensitisation, and is powder free reducing the risk of product contamination. With textured fingertips to provide increased grip, the Bodyguards® Black Nitrile GL897 is a glove with maximum sensitivity, dexterity and comfort.

EN455 Medical Devices Class I
