

High-Level Disinfectant Wipes CLP Compliance Factsheet

The appearance of Distel High-Level Disinfectant Wipes is changing to comply with the new Classification, Labelling and Packaging (CLP) Regulation.

CLP is the European Interpretation of GHS (Global Harmonisation System) for Classification, which is a UN initiative introduced in 1992. Its aim is to drive greater consistency in chemical labelling across the world, with the goal of increasing user and environmental safety associated with use of chemicals.

The CLP Regulation replaces the Dangerous Substances Directive (DSD) and the Chemicals Hazard Information and Packaging for Supply (CHIP) Regulation.

CLP becomes mandatory from 1 June 2015. This means that the appearance of labels and Material Safety Data Sheets of Distel High-Level Disinfectant Wipes will change. Already manufactured and labelled products will continue to be supplied after 1 June 2015 until stocks last, resulting in a mix of CHIP and CLP labels during a short period.

Please contact your local Tristel representative or Customer Services to request CLP Material Safety Data Sheets.

For further detailed information regarding the CLP Regulation, please visit www.echa.europa.eu.

Distel is manufactured in Great Britain by:

Tristel Solutions Limited, Lynx Business Park,
Fordham Road, Snailwell, Cambridgeshire, CB8 7NY, UK

Distel High-level Disinfectant Wipes

Distel High Level Disinfectant Wipes are intended for cleansing of hard surfaces of non-invasive, non-lumened medical devices such as, monitors, IV poles, and X-ray equipment. **Not to be used to disinfect invasive medical devices.** The Distel formulation has been tested:

- As non-corrosive to instruments, when used as per directions.
- As non-irritant and non-fuming, when used as per directions.

Preparation and use

- Before first use remove foil seal.
- Remove wipe from tub and close lid to prevent remaining wipes from drying.
- Wipe already contains active ingredients. Do not add water or other chemicals.
- Wipe equipment or surface as required and allow to dry.

New CLP
precautionary
statements

Contents

- Polymeric biguanide hydrochloride, Alkyldimethyl benzyl ammonium chloride, Didecyl dimethyl ammonium chloride.

Storage

- Store product out of direct sunlight.
- Keep between 5°C and 25°C.

SAFETY DATA SHEET DISTEL HIGH LEVEL RTU DISINFECTANT WIPES

Page: 1

Compilation date: 25/04/2012

Revision date: 21/04/2015

Revision No: 6

Section 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Product name: DISTEL HIGH LEVEL RTU DISINFECTANT WIPES

1.2. Relevant identified uses of the substance or mixture and uses advised against

Use of substance / mixture: Hard surface disinfectant wipe. For professional use only. Uses advised against: Uses other than the intended use of the product

1.3. Details of the supplier of the safety data sheet

Company name: Tristel Solutions Limited

Lynx Business Park

Fordham Road

Newmarket

Cambridgeshire

CB8 7NY

United Kingdom

Tel: +44 (0) 1638 721 500

Fax: +44 (0) 1638 721 911

Email: healthandsafety@tristel.com

1.4. Emergency telephone number

Emergency tel: +44 (0) 1638 721 500
(office hours only)

Section 2: Hazards identification

2.1. Classification of the substance or mixture

Classification under CLP: Eye Irrit. 2: H319; ∴ EUH208

Most important adverse effects: Contains polymeric biguanide hydrochloride. May produce an allergic reaction. Causes serious eye irritation.

2.2. Label elements

Label elements under CLP:

Hazard statements: EUH208: Contains polymeric biguanide hydrochloride. May produce an allergic reaction.
H319: Causes serious eye irritation.
